

SHUBH DIXIT
AI Research Intern | Cybersecurity Enthusiast | Full Stack Developer
Jaipur, Rajasthan, India | shubhdixi9@gmail.com | +91 6375488022

ABOUT ME

B.Tech CSE student at JKLU, currently working as a Research Intern at IIT Ropar and Intern at IIT Kanpur. Passionate about Artificial Intelligence, Cybersecurity, Computer Vision, and building impactful technology products.

EDUCATION

JK Lakshmipat University (JKLU) 2025 - Present
B.Tech in Computer Science Engineering (Focus: AI, Software Development)

IIIT Delhi Semester Exchange
Advanced Computer Science Coursework

EXPERIENCE & INITIATIVES

IIT Ropar - Research Intern May 2026 - Present
* Working on Artificial Intelligence research, model development, and experimentation.
* Conducting data analysis, performance evaluation, and research reporting.

IIT Kanpur - Research Intern May 2026 - Present
* Implementing and optimizing Machine Learning and Deep Learning applications.
* Exploring advanced neural network architectures.

Founder, SeioPluse 2025 - Present
* Spearheaded an AI-powered healthcare startup.
* Built Breast Cancer Detection System using YOLOv8, Python, OpenCV, and Flask.
* Achieved F1 Score ~ 0.98 and mAP@50 ~ 1.0.

FEATURED PROJECTS

AI Breast Cancer Detection System
* Tech Stack: YOLOv8, Python, OpenCV, Flask
* Developed a web-based medical image analysis platform for tumor detection.

CSI Feedback Compression using Transformers (Research Project)
* Tech Stack: Deep Learning, Transformers, PyTorch, Wireless Communication
* Improved CSI feedback compression by replacing LSTM with Transformer architecture.

Malware Detection using Machine Learning
* Tech Stack: Python, Scikit-Learn, XGBoost, Cybersecurity
* Built a static malware analysis platform for threat feature extraction and classification.

Virtual Guitar Interface
* Tech Stack: YOLOv8, OpenCV, Python
* Hand-tracking and finger detection model for real-time music generation.

TECHNICAL SKILLS

- * Programming: Python, C, C++, Java, JavaScript, PHP
- * AI & ML: YOLOv8, OpenCV, Scikit-Learn, Deep Learning, Computer Vision, Transformers
- * Cybersecurity: Linux, Kali Linux, Wireshark, Nmap, Burp Suite, Malware Analysis
- * Web & DB: HTML, CSS, JavaScript, Flask, MySQL

HONORS & ACHIEVEMENTS

- * Research Internship at IIT Ropar (2026)
- * ML Research Internship at IIT Kanpur (2026)
- * Founder of SeioPluse AI Healthcare Startup
- * 50% JKLU Merit Scholarship
- * 60% LPUNEST Scholarship
